

Leg. Atomic Energy Leg.
[Signature]

7 June 1956

MEMORANDUM FOR: Mr. Houston

SUBJECT: Atomic Energy Amendments

1. I have had conversation with Fred Schuldt of the Bureau of the Budget this week on the Atomic Energy amendments. The AEC has now formally indicated that they favor the amendment to Section 143, and oppose all other Defense suggestions. I have made it clear to Mr. Schuldt that if it looks like there is to be a fight on the other amendments, we would strongly recommend that the amendment to Section 143 be detached and sent up immediately. Mr. Schuldt recognizes the urgency and has stated that he expects to be in touch with ~~you~~ the first of next week, possibly to arrange a meeting with Defense, AEC and ourselves.

2. I am going to be out of town on Monday and possibly on Tuesday, and so I have asked Mr. Schuldt to call you if anything happens on either of those days.
